

Little Red Wasp Restaurant

Location: 808 Main Street
Fort Worth, TX 76102

Size: 3,600 SF

Description:

Renovating a 1950's building with a 1970's addition was no easy feat. Adding to the challenge was no available space for the restaurant's Grease Interceptor. The Panther RES team working with architect ID Studio 4 and General Contractor Tom Struhs, implemented several innovative solutions to open the restaurant on time and in budget.
